Dear Ms. Brandler,

I read with great interest the profile on your company, Trip Nurse, in the August 24th edition of the *Denver Post*. It is very refreshing to read about the innovative medical care provided by a company that is committed to ensuring a high quality of life for chronically ill patients.

As an entrepreneur who has founded several companies, I know first hand how much hard work and determination are necessary to succeed in today's business climate. Health care offers numerous opportunities for new entrepreneurs to offer creative products and services and address, the largely unmet, market demand. You should be very proud of your exemplary achievement and success.

Thank you for all of your hard work and contributions to health care innovation and I wish you continued success in all of your future endeavors.

Sincerely,

Jared Polis
